For International Students

● Educational and Research Support for Academically Outstanding International Students

<New>

We support international students' educational and research activities and provide an environment where they can focus on their studies and extracurricular activities.

1. Annual tuition will be reduced to the same level as that for Japanese students.
2. Full annual tuition will be waived for the two highest-achieving international students.
3. A scholarship of JPY 100,000 per year will be awarded to the ten highest-achieving international students (excluding those receiving the full tuition waiver under item 2).

Note: We will select and notify students eligible for tuition exemptions prior to enrollment. In principle, students in each academic year who meet the academic criteria will receive the above support for the duration of the standard period of study.
